

Amajei, Class of 2018

School my way means I can do it on my time. Do it whenever I need to and whenever I want to. My way is when I can ask for help and I won't have to worry about teachers not giving me the help that I need or the help that I want, and on my time. It feels great and emotional at the same time. It's a great accomplishment. I'm happy to be here and I'm happy to graduate. SC Whitmore was also a requirement for our basketball team. To play basketball we had to go through SC Whitmore online to do school work and it fit in. Business, Marketing, and Physical Therapy. I'm trying to start my own business with Physical Therapy.
