

SC Whitmore School Graduation Highlights 2019

“Welcome to the 2019 South Carolina Whitmore School graduation ceremony. Our school is very unique, as you know. All of you are from counties across South Carolina, and you choose to be apart of the SC Whitmore School family.” - Principal, John Loveday

“My experience with Witmore is outstanding. They are very good teachers and guidance counselors. Very helpful and goal-oriented.” -Paul Parker, Class of 2019

“What brought me to the Whitmore School is the flexibility that was offered. When I looked on the website the first thing that I noticed was, “School Your Way!” and it said that we could make our own schedule to go with like our other things going on in life and I really needed that.”-Aysmaine Campbell, Class of 2019

“I am graduating a year early and with me, to online school, I could go to York Tech. So I am going to College with six credit hours as well. If someone was thinking about going to Whitmore School, I would definitely recommend it. They will get to do everything at their own pace and the teachers and guidance counselors will always be there to help them.”- Alivia Ayers, Class of 2019

“What is it that drives you? What is it that you want to do with the rest of your life?” The fact that you decided to finish high school is going to be a decision that will suit you for a lifetime, and I hope that you will remember today, that no matter where you are in life even if you haven’t figured it out yet, that there is always room to grow.” -Nancy Mace, Guest Speaker

“My experience was great with SC Whitmore. I would recommend this school to anyone. It is a great school. And they get the job done.”-Tre’von Wilson, Class of 2019

“Choose Whitmore, “School Your Way!”- Aysmaine Campbell, Class of 2019
