

Alyssa Terrell, Class of 2021

SC Whitmore just provided me with a lot of individualism, I was able to work from home and it's just a lot easier for me to learn when I have one-on-one interaction with my teachers.

I originally when the pandemic started, I was having a lot of trouble with my regular school, I was enrolled in a public school and they put me into some online classes which is a little bit difficult for me just because I had to get into the swing of things and figure out how to manage all of my classes. Going from being in-class setting to being in an online setting as well as my teacher is not really knowing how to manage that either.

So with SC Whitmore I was just able to adjust my own schedule and come up with what I want to do as far as classes go and then ended up graduating with a 4.0 GPA which is a lot more than I feel like I would have been getting in public school.
