

Blythe Rawlings, Class of 2021

I like being by myself and doing things on my own and I found SC Whitmore and ever since then I've just loved it.

School my way just technically means like I can get the help that I need and do school technically my way so I'm learning what I need to learn and how I learn it rather than just everybody working together.

Definitely do it, definitely do it. It's been the greatest experience I've ever been able to go through. It's helped me a lot and I've definitely recommended it to all of my friends that have transferred and they all say that they love it.
