

**Deven Soriano, Class of 2021**

I came to Whitmore School to try something new and my older brother went to this school. I wanted to try it out and so far I really enjoyed it and I really recommend it to anyone that decided to do SC Whitmore.

School my way means to me that I can do whatever I want to. I can get it done whenever, I can do it at my own pace. You are not pressured at all and basically you have all the time you need to finish your work.

After I graduate I plan on attending a small community college at Greenville Tech and from there I am going to focus into exercise science and major into athletic training and then transfer out to either USC Upstate or USC.

Go for it, don't hesitate actually go for it.
