

Kiersten Boulden, Class of 2022

Kiersten Boulden: I got into SC Whitmore School because of COVID. The schools started closing and everybody started getting online. So my dad and I we looked for a school that specialized in online learning and Whitmore became the perfect fit.

John Paul Boulden: My part as a parent I didn't have to do really much at all. Just read her papers and kind of helping with some of that, but her teachers were very spot on. They were very excited to help her. In this school we were able to do dual enrollment. She's actually, she's graduating a year early because of the school.

Kiersten Boulden: SC Whitmore School is a great option because everything is self paced the teachers are very kind and supportive. They told me exactly what I needed, to graduate.

John Paul Boulden: South Carolina Whitmore is taking this concept to a very sophisticated level. I couldn't see a better opportunity for someone that wants to be successful.
